

GMG Venture Capital Dublin - Promoting Artingence to new heights accross the UK

Artingence awareness campaign continues to move in the right direction

GMG Venture Capital Dublin who have been engaged to raise awareness of Artingence PLC in order for them to develop their unique A.I. programme combining current technology to create a world changing product. The corporate focus for Artingence PLC is to revolutionise the call centre industry by helping companies to provide consistently high customer satisfaction at reduced cost with reduced management overhead have seen some fantastic results.

Through the use of several areas of the media such as BBC Radio and Newspapers across the UK Artingence's main product AIDA is now gaining interest from several big players in the industry.

We are now hoping that Artingence will be making trial runs of their product over the coming months not only in the UK but also across the globe.

You can see some of this information on the Artingence website by following the link below:
